* Sum of components may not equal total, due to rounding.

"The labour market bounced back in November," said Ahu Yildirmaz, vice president and co-head of the ADP Research Institute. "Nearly all industries showed improved job growth with trade, transportation and utilities leading the way. On the other hand, information continued the slowdown we saw last month."

The October total of jobs added was revised up from -23,000 to 1,800.

The December 2018 *ADP Canada National Employment Report* will be released at 8:30a.m.ET on January 17, 2019.

About the *ADP Canada National Employment Report*

The *ADP Canada National Employment Report* is a monthly measure of the change in total Canada nonfarm payroll employment derived from actual, anonymous payroll data of client companies served by ADP Canada. The report, which measures more than two million workers in Canada, is produced by the ADP Research Institute®, a specialized group within the company that provides insights around employment trends and workforce strategy.

Each month, the ADP Research Institute issues the *ADP Canada National Employment Report* as part of the company's commitment to adding deeper insights into the labour market in Canada and providing businesses, governments and others with a source of credible and valuable information. The *ADP Canada National Employment Report* is broadly distributed to the public each month, free of charge.

For a description of the underlying data and the statistical model used to create this report, please see "[ADP Canada National Employment Report: Development Methodology](#)".
